DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 9 is rejected under 35 U.S.C. 102(b) as being anticipated by Criley.

Criley discloses a tailgate step comprising means for supporting a mass at a vertical position between a vehicle tailgate and ground level (see figure 11), means for pivoting the means for supporting a mass between a working position and a stored position (50), at least a portion of the means for pivoting affixed within the vehicle tailgate, and means for storing (51) at least a portion of the means for supporting a mass within the vehicle tailgate.

Allowable Subject Matter

4. Claims 1, 6, and 10-16 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claim 9 filed 4/27/04 have been fully considered but they are not persuasive. Applicant contends that because claim 9 uses means plus function language and thus requires the prior art to "perform the same function in substantially the same

way with substantially the same result as the present invention". The Examiner respectfully disagrees. Applicant has not set out in the arguments exactly what it is that the claim language requires that the prior art does not show. It is unclear from the arguments how the invention shown by Criley does not "perform the same function in substantially the same way with substantially the same result as the present invention". Applicant does not specifically point out what is not anticipated by the reference other than making the statement that the reference does not anticipate the present invention.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
